- Revenue from international markets beyond Africa up by 13.1%, positively impacted by the weaker rand. However, volumes declined by 12.5% due to continuing tough trading conditions

UNILEVER SA (25.8% effective interest)

R'million	Year 30 June 2016	Year 30 June 2015	% change
Profit after tax	1 780	1 246	42.9

- The reasons for the increase in profits were due to:
 - › revenue growth; and
 - › margin improvement
- Restructuring costs incurred amounted to R83 million (June 2015: R228 million), driven by investments for the Food Solutions factory resulting in:
 - › streamlining operations; and
 - › improved efficiencies

RCL FOODS (77.3% effective interest)

- RCL Foods' results were positively impacted by the release of a R163 million provision relating to uncertain Foodcorp tax disputes and a R119 million gain on the exercise of the Zam Chick and Zamhatch put options
- Excluding these, RCL Foods' contribution to headline earnings would have decreased by 41.7% to R440 million, mainly due to:
 - › Chicken business being impacted by a massive oversupply in the local market caused by local production and dumping; and
 - › Sugar business remaining under pressure due to the severe drought conditions

- RMBH and FirstRand reported headline earnings growth of 5.9% and 4.5%, respectively, mainly due to:
 - › growth in both interest and non-interest income from FNB, RMB and Wesbank; partly offset by
 - › an increase in credit impairment charges, which reflects the deteriorating macro-economic environment
- Remgro's effective interest in FirstRand is 13.5% (June 2015: 13.5%)
